

# Iustin-Andrei Toma

Student at Technical University of Cluj-Napoca - Computer Science

Hello, my name is Toma Iustin-Andrei. I am a student at the Faculty of Automation and Computer Science in Cluj-Napoca, and I aim to specialize in the IT field in the future. I can say that I am eager to gather as much information as possible from any area and then apply it in various everyday situations. Three words that describe me accurately are: determination, intelligence, and skill. I also have experience working in team environments and a reputation for hard work, punctuality, seriousness, and willingness to learn new things.
